Global Social Enterprise: Pilot Project TRANSFØRM

The project will be run in Geneva canton of Switzerland

Objective/Scope

Main goal is to test the viability of the new economic model through engagement, technology and impact. Therefore, the scope is limited to a selected number of providers, sponsors with the existing volunteer network, as well as business partners.

Participants/Roles

Global Social Enterprise:
ecosystem orchestrator
Providers: businesses that
contribute excess capacity
Sponsors; NGOs, associations
offering volunteer projects
Members: volunteers
Partners: finance, tech, media

Technology

- The MVP version of the social wealth ledger (database), algorithm, application and UX design
- Dual-currency transaction technology
- Integration, quality management, support

Duration/Timeline

The Pilot will run for 4 months to test and validate its assumptions and technology. Pre-Pilot phase includes:

- Fundraising: 8 months
- Partnerships: 6 months
- Technology: 4 months
- Marketing: 3 months

Metrics/KPIs

KPIs related to the economic model and system performance:

- · adoption rate
- social wealth generated
- capacity monetisation
- volunteer base growth
- · revenue model
- tech performance

Outcome

The following are expected results, if Pilot is successful:

- new mindset seeded
- stakeholders engaged
- · ecosystem created
- · technology tested
- economic and social value created and shared
